

Plan for 2026 now with KOSTAL!

Install, benefit...and install again

HELIVOR HV: KOSTAL's first high-voltage energy storage is launched

KOSTAL is expanding its range of accessories with its own high-voltage energy storage system and supplementing its existing partnerships. The KOSTAL HELIVOR HV impresses with its simple installation, flexible expandability and LFP technology, and is perfectly matched to the **KOSTAL PLENTICORE G3** and **PLENTICORE MP** inverters. Robust (IP 65), durable and safe, KOSTAL offers sustainable energy storage – with local service and support.

Plan now with KOSTAL and benefit

For a maximum of 5 installations of a KOSTAL HELIVOR HV high-voltage energy storage system during the promotional period from 1 February 2026 to 30 April 2026, you will receive 3 PLENTICOINS free of charge for each installation.

It's that simple:

Install the KOSTAL HELIVOR HV with a KOSTAL PLENTICORE* inverter during the promotional period. Activate AutoUpdate in the inverter settings. The PLENTICOINS will be credited to your PLENTICOIN company account at the end of the promotional period.

1. Order HELIVOR HV from wholesalers from 17 November 2025 onwards.

2. Install HELIVOR HV with PLENTICORE* during the promotional period and activate AutoUpdate.

3. Receive 3 PLENTICOINS for each of up to 5 installations in May 2026 automatically in your PLENTICOIN company account.

* The KOSTAL HELIVOR HV energy storage system is compatible with the KOSTAL PLENTICORE G3 and PLENTICORE MP inverters.

Tip:

Consider the KOSTAL HELIVOR HV for your offers in the coming year now! Further information on the KOSTAL HELIVOR HV is available [here](#).
