15/15**

Offer valid from
1 January 2026

Further
information

PLENTICORE plus

Strong performance, strong price advantage.

From 1 January 2026, KOSTAL will reduce the price of the PLENTICORE plus G2 by up to 15%. Together with the 15% performance upgrade (from 13 to 15 A), the PLENTICORE plus G2 is a strategically attractive KOSTAL inverter – perfectly positioned in the price-oriented segment.

Benefits for you and your customers

- ⊕ **15 A DC input current (+15%):** ideal for new module generations
- ⊕ **Up to 15% more battery charging/discharging power:** ideal for greater self-sufficiency and self-consumption
- ⊕ **Up to 15% cheaper in price from 1 January 2026:** ideal for price-oriented projects

Join now and combine cleverly

Combine the **impressive price-performance ratio** of PLENTICORE plus with storage solutions from Dyness, ZYC and Pylontech.

Reduced: The battery activation code for the PLENTICORE plus G2 is still reduced **from 3 to 1 PLENTICOIN**.

Storage bonus with ZYC:
Up to **2 PLENTICOINs free** when using a SIMPO HV as storage.

The PLENTICORE plus G2 with performance upgrade is the economical choice when price is the deciding factor and for anyone who values quality, German service and high reliability.
