KOSTAL Wallbox ENECTOR G2

Simply clever charging

Whether from the sun or the grid – the KOSTAL Wallbox ENECTOR G2 charges your electric car reliably with up to 11 kW, flexibly single- or three-phase.

With RFID, you authorise every charging session in an instant, conveniently controlled via the app or directly on the device. The robust housing withstands wind and weather, indoors and outdoors.

Optionally available with an MID meter for transparent billing.

Your local KOSTAL specialist.
